

## **Tom Green County Poster Printing Policy and Fees**

Poster printing is available using an EPSON Surecolor T7270, 44 inch poster printer at the Stephens Central Library's STEAM Central Makerspace.

Cost is determined by type and amount of paper used, and amount of ink, as determined by the LFP Print Accounting Software for EPSON. Cost cannot be finalized until a print is complete. As a guide, a 19 inch by 24 inch poster on luster paper prints for about \$1.90.

Patrons must bring files to print on a USB flash drive. Users will not be charged in cases of mechanical failure of the printer. However, refunds will not be given for design errors. Patrons may not demand a new print in place of the original due to dissatisfaction with color, scale, quality, pixilation, or other design issues. The printer may not be used to print files deemed offensive as determined by STEAM Central staff.

The copyright law of the United States (Title 17, U.S. Code) governs the making of photocopies or other reproductions of copyrighted material. The person using this equipment is responsible for any infringement.
